

KanSec 2012

2nd Greater Kansas Area Security Workshop

October 27, 2012

Fort Hays State University, Hays, KS

KanSec: The Greater Kansas Area Security Workshop

<http://kansec.fhsu.edu/>

The KanSec workshop brings together researchers and practitioners in security-related fields across Kansas and the neighboring area. The goal of this workshop is to provide a regular forum for presenting research and education activities in all areas related to computer and communication security, as well as promoting interactions and collaborations among scholars and students and between academia and industry.

The 2nd KanSec workshop will be hosted by Fort Hays State University on **October 27, 2012**. It will be a one-day workshop which includes invited talks, presentations, and poster sessions. There will be no printed proceedings. We would like to invite researchers, engineers, educators, and students to join us in the second event of the series. Registration information will be available on the workshop website <http://kansec.fhsu.edu/>.

We seek submissions presenting original research and education activities on all practical and theoretical aspects of computer and communications security. Topics of interest include, but are not limited to:

- Anonymity
- Access control
- Cryptography
- Cybersecurity experimentation
- Database security
- Information Assurance education
- Intrusion detection and prevention
- Legal and policy aspects of cybersecurity
- Network security
- Privacy
- Resilience and survivability
- Risk management
- Security for cyber-physical systems
- Security for mobile computing platforms
- Security metrics
- Systems security
- Usable security
- Web security

For oral and poster presentations, please submit a one-page abstract to kansecworkshop@gmail.com by **October 5**. Please indicate whether the submission is for oral or poster presentation. Notifications of accepted presentations will be sent out around October 8.
